HIGH SCHOOL.

It is gratifying to note that the interest in this school does not diminish and is manifested by the frequent visitations to the school room, and I am glad to report that there is abundant evidence that the school is in a healthy and prosperous condition and that the great results which are being wrought out are generally appreciated.

While the Board of Trustees of Hampton Academy give the use of their building and the income of quite a large sum for the benefit of a public school, I trust the town will generously appropriate money for its continued support.

WM. T. Merrill,
For the High School Board.
School Report.

To the Citizens of Hampton:

In rendering an account of our stewardship for the past year, we do it more cheerfully in the belief that our labors have not been altogether in vain. We have been particularly fortunate in retaining our teachers of past years, who have faithfully and successfully discharged their duties. Judged by results our schools have made marked progress. In the primary grade of schools, we made a change in teachers only in the East school. The present teacher, Miss Hooper, is rendering excellent service. The Centre primary has been taught by Miss Carswell for a number of terms. She has fully maintained her established reputation of being one of the best of common school teachers. An excellent disciplinarian, a patient and earnest worker and employing the best methods, she merits the success which she gains.

The North primary has been taught by Miss Sadie M. Hobbs for two years. Her reputation is well established in this district, and she deserves much praise for her gentle influence over her pupils, her untiring efforts to advance them in their studies and her patient regard for all their needs.

The Grammar School.

The degree of excellence our Grammar School has attained is due to the experience, zeal, and ability the teacher, Miss Norris, has brought to her work. Her earnest study has been to enlarge and make her work more fruitful. A systematic, thorough teacher, with dignity that commands love as well as respect, every word has a meaning which is perfectly understood and appreciated. We can but express our individual wishes that she may be induced to remain the teacher of the Grammar school for a long time.

Discipline.

We consider that one reason of the marked improvement in all our schools is in a great measure due to the disciplinary agencies employed in the government of our schools. We believe that discipline itself is a great educational process. The teacher cannot bring one new power to their moral or mental capacity, but they bring them under such a process of training as will develop the
latent energies of body, mind and soul, and direct them to a course of right action, so that the future citizen may be fitted for his great work and high destiny. The discipline of the school has reference to all prohibitions, regulations and restraints which are calculated to regulate the habits of study and deportment through the important and interesting period of school life. The school virtues to be cultivated are regularity of attendance, promptness, obedience, truthfulness and diligence. We are sure that the discipline in our schools has been much improved in the last few years. This is apparent in the better deportment in the school-rooms, a more ready obedience to the requirements of teachers, and to the rules and regulations of the Board of Education.

TEACHERS.

Grammar school, Miss Elizabeth B. Norris.
North Primary school, Miss Sadie M. Hobbs.
East Primary school, Miss Mary A. Hooper.
Centre Primary school, Miss Fannie F. Carswell.

Length of each public school, 35 weeks.
